The Safest Investments

Are these that do not depend upon the financial responsibility or the stability of any individual or corporation. First deeds of trust (mortgage) notes liberally secured on good real estate in the District of Columbia constitute "gilt-edged" investments. These are the only kind we make and suppy to investors. They bear interest, payable semi-annually, at the rate of Five per cent per annum, and may be had of us in amounts from \$100 and upward at par and accrued interest.
